

MX WHEELS

Cotton reinforced abrasive products are used throughout the world for a variety of applications that require medium to light duty metal removal, deburring, and finishing.

MX Wheels are made of a rubber bonded cotton fiber that is impregnated with aluminum oxide grain. Available in soft, medium, or hard in many sizes. 80 and 120 are the most popular grits, other grits available upon request. Suitable for applications on tool steels, stainless steel, aluminum and exotics. MX wheels are recommended for blending, light deburring and slight stock removal. They are ideal for fabrication and excellent for molds, runners, and tool and die applications. Here are three of the most popular:

SAMPLE KITS AVAILABLE
1/8" SHANKS

- **DEBURR AND FINISH IN ONE STEP**
- **CONTROLLED METAL REMOVAL**
- **MAINTAIN PART GEOMETRY**
- **NON-LOADING, EVEN WITH ALUMINUM**
- **LONG LIFE**
- **AVAILABLE IN MANY CONFIGURATIONS**
- **VERSATILE**
- **COOL CUTTING**
- **SMOOTH AND QUIET**
- **CHATTER FREE ACTION**
